

*As Our Guest at Casa de Montana
We Invite You to Experience a
Special Energy Balancing Session With Sound ..*

Yes ... Sound! Take a moment and imagine wonderful frequencies of sound coursing through your entire body. Now imagine yourself feeling a sense of freedom and lightness as your problems and issues seem to float away. This is typically what our guests report after receiving an Energy Balancing Session with exclusive **SomaEnergetics Tuning Forks**. These special forks utilize the power of ancient rediscovered Solfeggio Frequencies and literally **help energize your body with positive energy** while releasing negative energy.

Why do these sessions work so effectively? All of us store life experiences as energy patterns in our energy anatomy. Some of them, especially negative ones, create blockages which interrupt the free flow of energy in our lives. The amazing Solfeggio Frequencies automatically seek out and enter portals (points) in your energy system where blockages are present and help to dissolve them. You then suddenly have room for wonderful positive new energy to flow within you and awaken your entire energy system. **An Energy Balancing Session really does work and it really does feel good!**

On a physical basis, you will feel like you have had an **incredible body massage without ever being touched** but with sound creating the feelings. Your session will be conducted in on a massage table while fully clothed and will last approximately 45 minutes.

We are very pleased to have a knowledgeable sound practitioner who will provide you with this "feel good" modality. His name is Ed Kuiper. Ed is a Doctor of Metaphysics and is licensed under the authority of the Federation of Spiritual Healer License Boards {for more information about Ed, see the back of this sheet}. As a guest of Casa de Montana, Ed has agreed to charge you a **special fee of only \$55 (regular fee is \$65)**. So you save money while allowing yourself to experience a truly remarkable modality. We feel you really will love it.

To reserve your session, please call Ed directly. His number is 6957-6472. It is important that you do any scheduling by 9:30 am of the morning following your arrival because potential slots do fill up quickly. Ed looks forward to working with you.
